CONCEPT NOTE
DEVELOPMENT OF THEME PAVILION: START UP INDIA & STAND UP INDIA (in respect of Rajasthan Tradition)

On January 16, Prime Minister Narendra Modi unveiled a 19-point action plan for start-up enterprises in India. He also announced a self-certification scheme related to nine labour and environment laws. He also said that there would be no inspection of the enterprises during the first three years of the launch.

The PM had announced an all-inclusive action plan to boost such ventures that would boost employment generation and wealth creation.

1. Self-certification

The start-ups will adopt self-certification to reduce the regulatory liabilities. The self-certification will apply to laws including payment of gratuity, labour contract, provident fund management, water and air pollution acts.

2. Start-up India hub

An all-India hub will be created as a single contact point for start-up foundations in India, which will help the entrepreneurs to exchange knowledge and access financial aid.

3. Register through app

An online portal, in the form of a mobile application, will be launched to help start-up founders to easily register.

4. Patent protection

A fast-track system for patent examination at lower costs is being conceptualised by the central government. The system will promote awareness and adoption of the Intellectual Property Rights (IPRs) by the start-up foundations.

5. Rs 10,000 Crore fund

The government will develop a fund with an initial corpus of Rs 2,500 crore and a total corpus of Rs 10,000 crore over four years, to support upcoming start-up enterprises. The Life Insurance Corporation of India will play a major role in developing this corpus. A committee of private professionals selected from the start-up industry will manage the fund.

6. National Credit Guarantee Trust Company

A National Credit Guarantee Trust Company (NCGTC) is conceptualised with a budget of Rs. 500 crore per year for the next four years to support the flow of funds to start-ups.

7. No Capital Gains Tax

At present, investments by venture capital funds are exempt from the Capital Gains Tax. The same policy is being implemented on primary-level investments in start-ups.

8. No Income Tax for three years

Start-ups would not pay Income Tax for three years. This policy would revolutionise the pace with which start-ups would grow in the future.

9. Tax exemption for investments of higher value
In case of an investment of higher value than the market price, it will be exempt from paying tax

10. Building entrepreneurs

Innovation-related study plans for students in over 5 lakh schools. Besides, there will also be an annual incubator grand challenge to develop world class incubators.

11. Atal Innovation Mission

The Atal Innovation Mission will be launched to boost innovation and encourage talented youths.

12. Setting up incubators

A private-public partnership model is considered for 35 new incubators and 31 innovation centres at national institutes.

13. Research parks

The government plans to set up seven new research parks, including six in the Indian Institute of Technology campuses and one in the Indian Institute of Science campus, with an investment of Rs 100 crore each.

14. Entrepreneurship in biotechnology

The government will further establish five new biotech clusters, 50 new bio incubators, 150 technology transfer offices and 20 bio-connect offices in the country.

15. Dedicated programmes in schools

The government will introduce innovation-related programmes for students in over 5 lakh schools.

16. Legal support

A panel of facilitators will provide legal support and assistance in submitting patent applications and other official documents.

17. Rebate

A rebate amount of 80 percent of the total value will be provided to the entrepreneurs on filing patent applications.

18. Easy rules

Norms of public procurement and rules of trading have been simplified for the start-ups.

19. Faster exit

If a start-up fails, the government will also assist the entrepreneurs to find suitable solutions for their problems. If they fail again, the government will provide an easy way out.

Additional Conditions of Contract

1. **Correction of arithmetic errors.**

   Provided that Financial Bid is substantially responsive, the Procuring Entity will correct arithmetical errors during evaluation of Financial Bids on the following basis, namely:

   (a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;

   (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

   (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

   If the Bidder that submitted the lowest evaluated Bid does not accept the correction of errors, its Bid shall be disqualified and its Bid Security shall be forfeited or its Bid Securing Declaration shall be executed.

2. **Procuring Entity's Right to vary Quantities.**

   (a) At the time of award of contract, the quantity of Goods, works or service originally specified in the Bidding Document may be increased or decreased by a specified percentage, but such increase of decrease shall not exceed twenty percent, of the quantity specified in the Bidding Document. It shall be without any change in the unit prices or other terms and conditions of the Bid and the conditions of contract.

   (b) If the procuring Entity does not procure any subject matter of procurement or procures less than the quantity specified in the Bidding Document due to change in circumstances, the Bidder shall not be entitled for any claim or compensation except otherwise provided in the Conditions of Contract.

   (c) In case of procurement of Goods or services, additional quantity may be procured by placing a repeat order on the rates and conditions of the original order. However, the additional quantity shall not more than 25% of the value of Goods of the original contract and shall be within one month from the date of expiry of last supply. If the suppliers fails to do so, the Procuring Entity shall be free to arrange for the balance supply by limited bidding or otherwise and the extra cost incurred shall be recovered from the Supplier.

3. **Dividing quantities among more than one bidder at the time of award.**

   As a general rule all the quantities of the subject matter of procurement shall be procured from the bidder, whose Bid is accepted. However, when it is considered that the quantity of the subject matter of procurement to be procured is very large and it may not be in the capacity of the Bidder, whose Bid is accepted, to deliver the entire quantity or when it is considered that
the subject matter of procurement to be procured is of critical and vital nature, then in such
cases, the quantity may be divided between the Bidders, whose Bid is accepted and the second
lowest Bidder or even more bidders in that order, in a fair, transparent and equitable manner
at the rates of the Bidder, whose Bid is accepted.
